Roles

The role(s) required to **Edit** a Pre-Award Contract Record:

- AT-AT – Monitor
- AT-AT – Contracting Officer
- AT-AT – Region/HQ Monitor

Editing a Pre-Award Contract Record

This guide provides an overview of how AT-AT users can **Review** and **Edit** an **H - Pre-Award Contract Report** in the **Audit Tracking and Action Tool (AT-AT)** application that was created and assigned to them by the AT-AT Monitor.

Log in to PIEE and access the AT-AT application. In the AT-AT application go to the AT-AT Dashboard and locate the **'My Work'** section. Only records assigned to the user may be edited by that user. To edit a Record, locate the **'Edit Record'** icon directly next to the Record ID number. Click the icon to enter the record.

AT-AT – Contracting Officers have access to the “My Work” table on the dashboard; sort the columns by Report Code “H” to help filter the assigned records.

Record ID	Form 1 Notice Number	Report Number	Report Date	Contractor Name	Action Type	Report Code
1000006009	3907			CACI SECURED TRANSFORMATIONS, LLC		

For **AT-AT - Monitors** or **AT-AT - Region HQ Monitors** looking for a H – Pre-Award Contract Report, use the [Search Functionality](#).

To edit as a **AT-AT Monitor** or **Region/HQ Monitor**, search for a record within your DoDAAC (as a Region/HQ Monitor it will be within span of control of the registered Group/DoDAAC).

Click the Record ID Hyperlink to open the record in view only from Search Results

The record displays; click the “Assigned to Self” button at the bottom of the page. The record is available to be opened from the My Work Dashboard.

The AT-AT Record Header information is available at the top of the Edit screen.

Records open on the tab associated with its current pipeline position. All tabs are accessible during the data entry process. Continue with the training or select a tab link below to skip ahead.

EXAMPLE: A Record in the **Resolved** pipeline will open to the **Resolved** tab.

Record Header

The **Status** field only displays for records that have a DCAA Audit Report Number. The **Status** reflects the age of the record and is auto calculated based on the scenarios outlined below.

1. The "Status" will reflect "OA" (Over Age) when:
 - a. The "Target Resolution Date" has been missed (>-24:00 hours than today's 00:00 GMT); until the "Actual Resolution Date" is populated, OR
 - b. The "Target Disposition Date" has been missed (>-24:00 hours than today's 00:00 GMT); until the "Disposition Date" is populated or the action hits the six months and one day mark.
2. The "Status" will reflect "OA 6" (Over Age Six Months) when the "Target Disposition Date" is missed by more than six months, until
 - a. "Disposition Date" is populated, OR
 - b. "Yes" is selected in the "All CO Actions Complete" data field.
3. The "Status" will reflect "OA 12" (Over Age Twelve Months) when the "Target Disposition Date" is missed by more than twelve months, until
 - a. "Disposition Date" is populated, OR
 - b. "Yes" is selected in the "All CO Actions Complete" data field.
4. The "Status" will reflect "OA 18" (Over Age Eighteen Months) when the "Target Disposition Date" is missed by more than eighteen months, until
 - a. "Disposition Date" is populated, OR
 - b. "Yes" is selected in the "All CO Actions Complete" data field.
5. The "Status" will continue to track the "Target Disposition Date" at 6-month intervals (e.g., OA 24, OA 30, OA 36, etc.) until the
 - a. "Disposition Date" is populated, OR

b. "Yes" is selected in the "All CO Actions Complete" data field.

Field
Information**

Status

A record created manually or via the flat file upload the read-only "Status" field will be auto-populated on all standard Records and SubRecords. The "Status" values will be: "Less than 6 months", "6 to 12 months", "Over 12 months", "Closed", "Deferred Litigation", or "Deferred Investigation" (designation depends on the following statements).

Scenario 1:

The record is not in a "Deferred Investigation", "Deferred Litigation", or "Closed" pipeline position.

Then the read-only "Status" field will be auto-populated with an age category status and the age category status is calculated based on the "Report Date" field ("Less than 6 months", "6 to 12 months", "Over 12 months") in comparison to the user's system date (current date).

For example, Report Date is 09/1/2023 and today is 3/11/2024, the difference between the dates is 6 months and 11 days, so the status would show "6 to 12 months".

Scenario 2:

The record is in the Deferred pipeline position (designated by a date in the "Deferred Status Date" field, but not one in the "Deferred Status Removed Date" field).

"Yes" is selected in the "In Litigation" field.

Then the read-only "Status" field will be auto-populated with "Deferred Litigation" status.

Scenario 3:

The record is in the Deferred pipeline position (designated by a date in the "Deferred Status Date" field, but not one in the "Deferred Status Removed Date" field).

"Yes" is selected in the "Criminal Investigation Involvement" field.

Then the read-only "Status" field will be auto-populated with "Deferred Investigation" status.

Scenario 4:

"Record Closed Date" has been populated.

Then the read-only "Status" field will be auto-populated with "Closed" status.
