

Welcome to Wide Area Workflow e-Business Suite. This demonstration contains audio narrative. Please adjust your volume accordingly.

This presentation is an overview of ECP0818, DLA Energy TQ COC/APR Vendor Email Notification.

The workflow email to the Inspector has been modified to insert a statement if the vendor selected COC or ARP while creating the Energy Receiving Report.

"The document has been released per COC terms." or

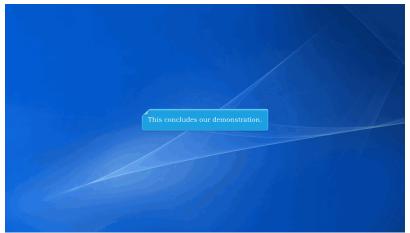

"The Document has been released per APR terms."

An error will be and the contrac Reports, and R	ERROR: COC claus	e was not found for the base nation of base contract and	contract SP	r 0001. Currency Code	ceiving ents).
and the contrac	ERROR: COC claus the combi	e was not found for the base nation of base contract and	contract SP	r 0001. Currency Code	ceiving ents).

An error will be shown on the Header page and the system will prevent creation of the document if COC is selected and the contract does not contain the COC clause. This will apply to all Receiving Reports, Energy Receiving Reports, and Reparable Receiving Reports (including the COMBO method of creation for these documents).

An example of an error message would be:

ERROR: COC clause was not found for the base contract SPE60011A1111 or the combination of base contract and delivery order 0001.

This concludes our demonstration.
