

Welcome to Wide Area Workflow e-Business Suite.  
This demonstration contains audio narrative. Please adjust your volume accordingly.

The screenshot shows the login interface for WideAreaWorkFlow e-Business Suite 5.9.0. It includes a 'Certificate Login' section with a 'Certificate Login' button, and a 'User ID Login' section with fields for 'User ID' and 'Password', and a 'Login' button. A 'System Messages' table is visible, and a blue callout box contains the following text:

This presentation will demonstrate ECP0873, DLA-E Receiving Reports for S/S Transactions.  
The purpose of this ECP was to modify the Source/Source Energy Receiving Report to have two date fields on inspection: **Inspection Date** and **Acceptance Date**.

At the bottom of the page, there are logos for various agencies: IRAPT, EDA, IUID, CBRT, eMIR, MRS, NCCS, and a link to the Apple App Store (External Link).

This presentation will demonstrate ECP0873, DLA-E Receiving Reports for S/S Transactions.

The purpose of this ECP was to modify the Source/Source Energy Receiving Report to have two date fields on inspection: Inspection Date and Acceptance Date.

The screenshot shows the 'Inspector - Energy Receiving Report' form in the iRAPT system. A blue callout box with a pencil icon states: 'Previous Functionality: When an Inspector worked a Source/Source Energy Receiving Report, there was only one date field labeled Inspection Date.' Below this, a red box highlights a single date field labeled 'Inspection Date' with a 'YYYYMMDD' format. The form includes sections for 'Summary of Detail Level Information', 'Routing Information', and 'Contractor Certification'. The 'Contractor Certification' section has a 'Required Fields' list containing 'ACTION BY: FU4417', 'CQA', 'Acceptance', and 'Reject to Initiator'. There are also signature fields for 'Kelli Fuller' (Signature of Prime Contractor) and 'Signature Of Authorized Government Representative'.

Previous Functionality:

When an Inspector worked a Source/Source Energy Receiving Report, there was only one date field labeled Inspection Date.

The screenshot shows the updated 'Inspector - Energy Receiving Report' form. Two blue callout boxes with pencil icons provide details: 'The label of the old Inspection Date field has been changed to Acceptance Date.' and 'A new field has been added and labeled Inspection Date.' Below these, two red boxes highlight the new date fields: 'Inspection Date' and 'Acceptance Date', both with 'YYYYMMDD' formats. The form structure is similar to the previous version, but the 'Required Fields' list now includes 'CQA', 'Acceptance', and 'Reject to Initiator'. The signature fields and other form elements remain the same.

The label of the old Inspection Date field has been changed to Acceptance Date. A new field has been added and labeled Inspection Date.

When viewing a document inspected prior to version 5.9, the label will read Acceptance Date instead of Inspection Date. There will not be an Inspection Date on the document.

This concludes our demonstration.
